

**Example 4a-1** - Determine the internal shear and moment in the cantilever beam shown above at a section passing through points *C* and *D*.

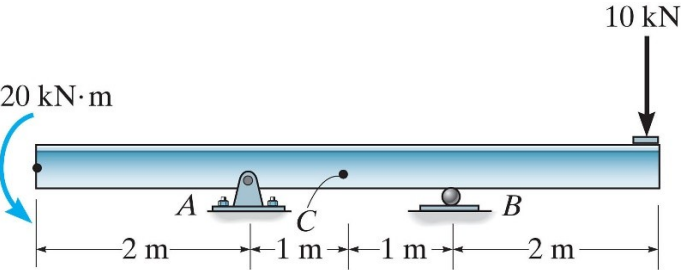

**Example 4a-2** - Determine the internal shear and moment at a section passing through point C.

**Example 4a-3** - Determine the internal shear and moment at a section passing through point C.

**Example 4a-4** - Determine the internal shear and moment at a section passing through point C.

**Example 4a-5** - Determine the internal shear force and bending moment at a section to left of point *D*.
