

Example 7a-1: Determine the equations for slope and displacement in the following beam.

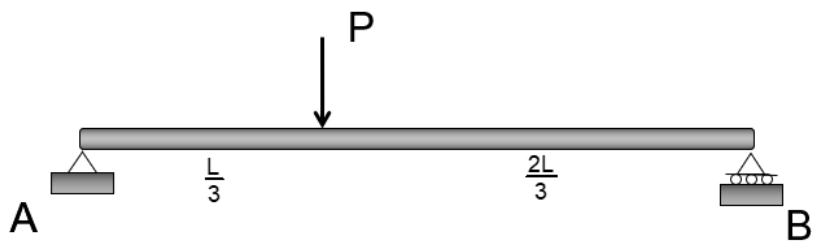

Example 7a-2: Determine the equations for slope and displacement in the following beam.

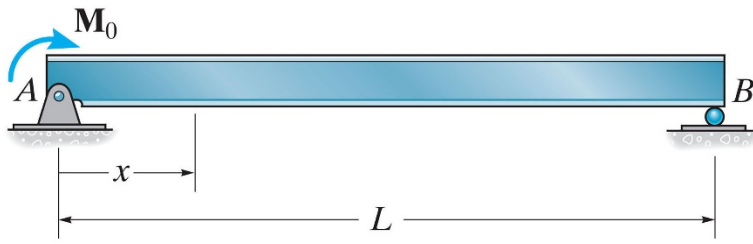

Example 7a-3: Determine the equations for slope and displacement in the following beam.

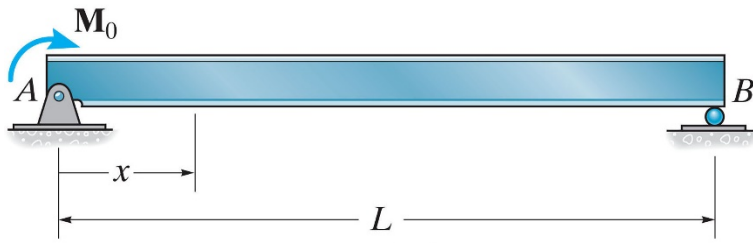

Example 7a-3: Determine the equations for slope and displacement in the following beam.

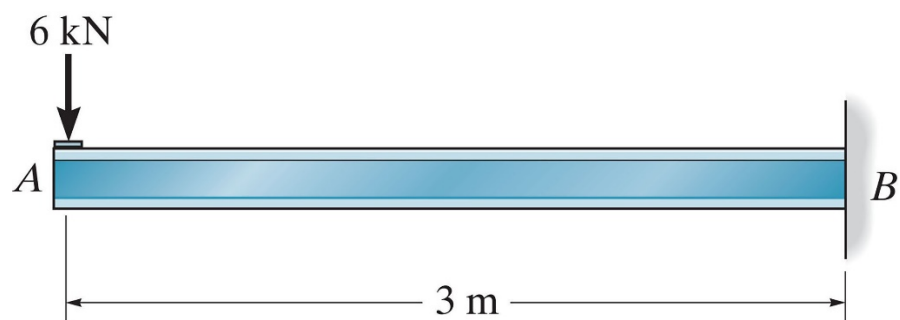

Example 7a-4: Determine the equations for slope and displacement in the following beam.

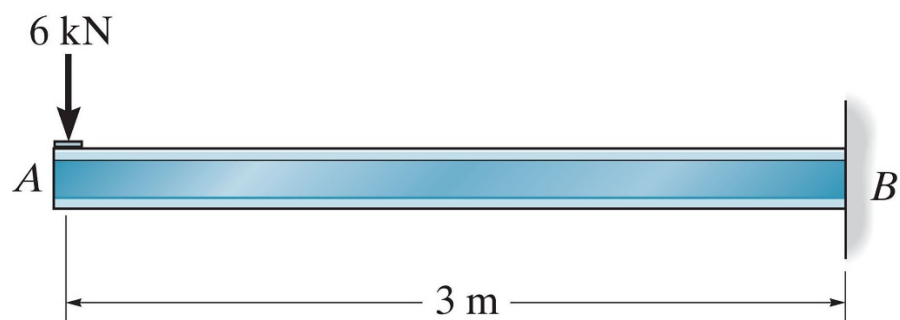

Example 7a-4: Determine the equations for slope and displacement in the following beam.

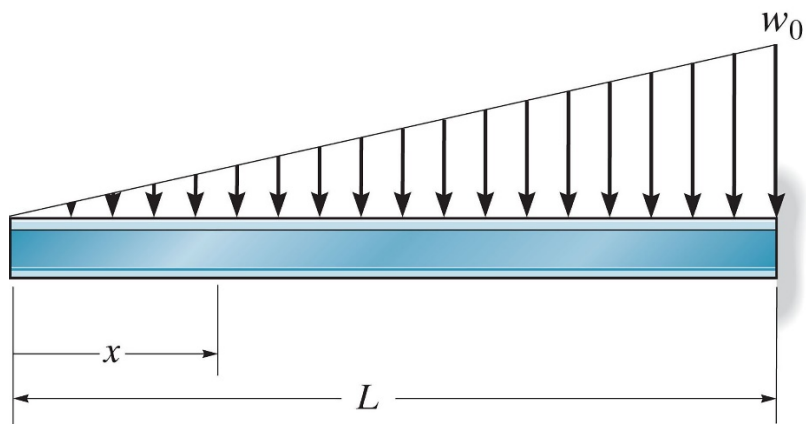

Example 7a-5: Determine the equations for slope and displacement in the following beam.

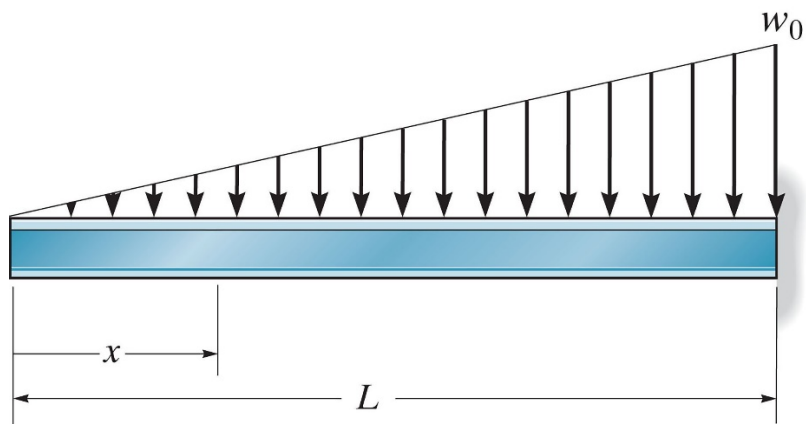

Example 7a-5: Determine the equations for slope and displacement in the following beam.

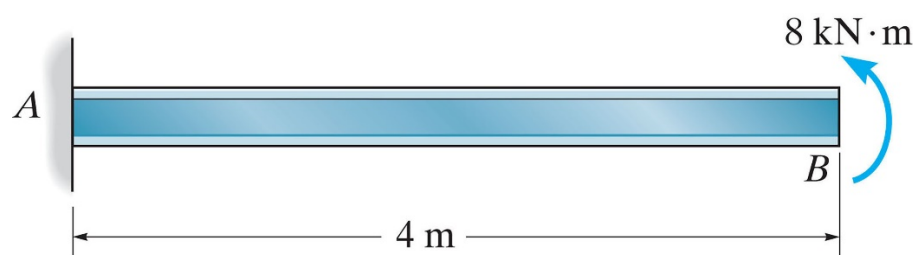

Example 7a-6: Determine the equations for slope and displacement in the following beam.

Example 7a-6: Determine the equations for slope and displacement in the following beam.

Example 7a-7: Determine the equations for slope and displacement in the following beam.

Example 7a-7: Determine the equations for slope and displacement in the following beam.
