Select a current published research paper (must be published no earlier than 2005) on any aspect of transportation engineering in which you are interested. Submit a 2 page typed review of the article, along with a photocopy of the article text. Use Times New Roman font, size 12, and double-spaced text. You must attach a photocopy of the article text to your review. Review requirements are given below. Make sure that reviews are well written, and that care is taken to avoid accidental plagiarism. You will turn in two reviews this semester. Due dates are noted below.

Requirements:

1. Write a brief summary of the article text.
2. Discuss the elements of transportation engineering/design related to the research project.
3. Explain how the research is related to what we are discussing in this course.

Review Due Date:

Thursday, April 8, 2010
