The CN Summer Youth Transportation Institute is a two-week program that links science and mathematics to problems related to the transportation industry from a viewpoint of engineering problems and logistics. It is designed to be a fun, learning experience for both the students and teachers who participate.

The program is designed for students who are completing grades 6, 7, or 8 during the 2003-2004 academic year. The program is also for teachers who will be teaching math and/or science at these grade levels. Students and teachers are expected to be able to attend the program for all ten days.

Participating teachers will be paid a small stipend and will be able to bring all materials back to their schools at the end of the program.

The program will be held on the campus of the University of Memphis at the Herff College of Engineering from 8:00 am until noon, Monday through Friday, July 12th – 23rd, 2004.

To be considered for the program, students and teachers should complete the application below and either mail or fax the completed application to the address shown below. You may also apply online at www.ce.memphis.edu/cnyti. Applications will be considered on a first-come, first-serve basis.

There is no cost for this program.
In addition to this application, students must have two letters of reference submitted for them. Teachers are excellent sources of reference but students may choose to have someone else who is familiar with them submit the references. The reference letters should address the student’s desire to achieve and their willingness to work within an academic environment. Participating teachers should have one letter of reference from a supervisor. Please submit the references and this application to:

CN Youth Transportation Institute  
Department of Civil Engineering  
Herff College of Engineering  
The University of Memphis  
Memphis, TN  38152  
Attn: Paul Palazolo

You may mail the completed application to the address above or fax it to 901-678-3026, attention Paul Palazolo.
